

# Multnomah County Sheriff's Office

## 2010 FREQUENTLY BOOKED REPORT

Prepared by Dave Braaksma, MCSO Planning & Research

*Multnomah County Sheriff's Office – Daniel Staton, Sheriff*  
501 SE Hawthorne Blvd., Suite 350 Portland OR 97214  
503-988-4300 (TTY 503-988-4500) [www.mcso.us/public/](http://www.mcso.us/public/)

## Executive Summary

The *Frequently Booked Report for Calendar Year 2010* identifies arrestees who were frequently booked into the Multnomah County Booking Facility during the 2010 calendar year. It also provides comparisons to previous year's arrestees who meet the same criteria. To be identified as a frequently booked arrestee for this study, an arrestee has to have been booked at least ten times during the 2010 calendar year.

The purpose of the report is to identify those individuals who were chronically arrested and booked into jail, give some insight into the types of crimes they were charged with, and provide information regarding their demographics. The report has been prepared for the policy makers within the public safety system and for social service practitioners so that targeted programs may be developed to properly reengage this group into mainstream society.

While the frequently booked population accounts for only slightly more than one half of one percent of the persons booked within the year, they were responsible for one of every 21 Standard Bookings that occurred. The charges frequently booked arrestees incurred were primarily low level, misdemeanor nuisance crimes, and the arrestees were usually released hours after being brought to jail. The majority of the frequently booked population is White and male. Frequently booked males are approximately eight years older than the average age of all males booked, while frequently booked females are approximately one year older.

The Portland Police Bureau was identified as the arresting agency for the majority of all bookings considered in this report. TriMet has the second highest number of bookings. Nearly one third of all charges booked were for property crimes, however warrants for failure to appear for the municipal (local) charge of Open Container constituted approximately 20% of all the bookings for the frequently booked population.

The report provides information about the arrestees and gives details about the alleged offenses. All information contained in this document is public record. Names and charges of persons included in the aggregate data can be found in the appendices.

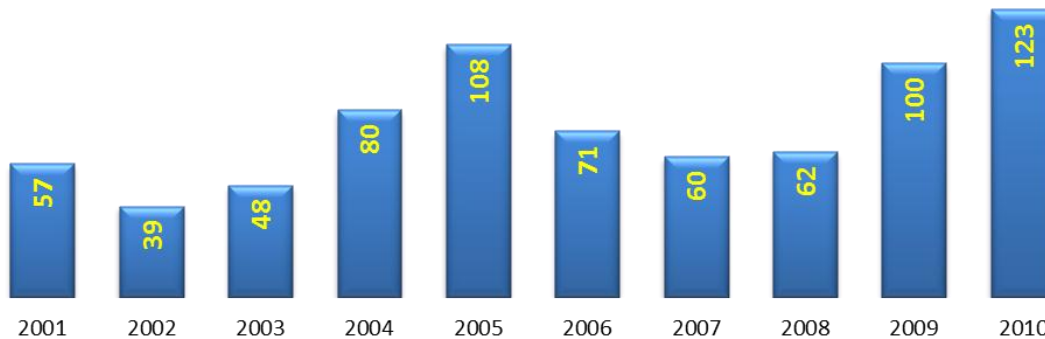

This report was created from booking, housing, crime type and demographic data going back to January 1, 2001. The numbers include arrestees who were processed through booking and lodged (Standard Booking) as well as instances in which arrestees were arrested and brought into the booking facility to be given a citation, identified, checked for warrants, and then released (Cite & ID Booking). Due to policy changes, Cite & ID Bookings ceased in July of 2009. Cite & ID Bookings have been included for the prior years to provide insight into the history of this year's frequently booked arrestees.

The name, SWIS ID, demographic information, primary charge, arresting agency and length of stay for each booking were extracted from DSS-J, imported into an Access database, and subsequently into Excel for charting and table generation.

## Overview

Frequently booked arrestees are people who have been booked at least 10 times during the 2010 calendar year. In 2010, the number of arrestees who met the frequently booked criteria was the highest it has been in the last 10 years. One hundred twenty-three individuals were booked at least 10 times, which is a 23% increase over the previous year (Figure 1).

**Figure 1: Number of Arrestees With 10 or More Bookings Each Year**

Many of the frequently booked arrestees for 2010 have had one booking or more over several *consecutive* years (Table 1). Of the 123 frequently booked in 2010, there were 11 persons who had no bookings in any of the previous 10 years.

**Table 1: Consecutive Years of Bookings for 2010 Frequently Booked Arrestees**

Number of Years	Number of Arrestees	Number of Years	Number of Arrestees
2 Years	25	7 Years	7
3 Years	24	8 Years	4
4 Years	15	9 Years	5
5 Years	11	10 Years	5
6 Years	7		

## Frequently Booked by Race, Gender, and Age

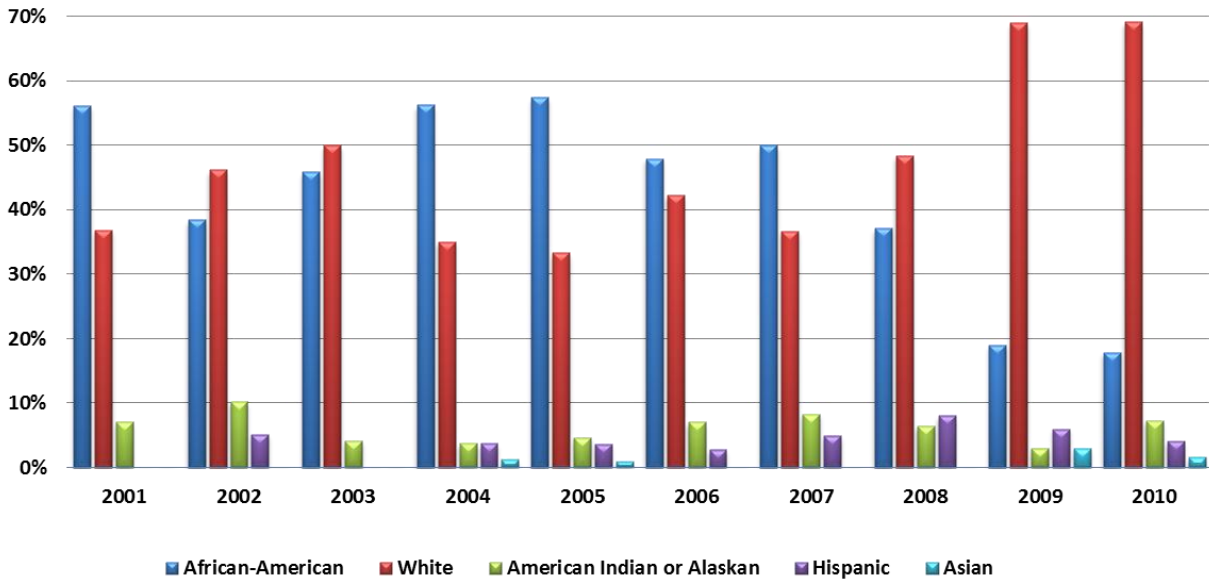

Whites make up the majority of the frequently booked population with 85 of the 123 arrestees falling into this race category (Table 2). There was one fewer frequently booked person than last year in the Hispanic and Asian categories (from six to five and three to two respectively), while American Indian or Alaskan bookings increased from three to nine.

**Table 2: Frequently Booked Arrestees by Race**

	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010
<b>African-American</b>	32	15	22	45	62	34	30	23	19	22
<b>American Indian or Alaskan</b>	4	4	2	3	5	5	4	4	3	9
<b>Asian</b>				1	1				3	2
<b>Hispanic</b>		2		3	4	2	3	5	6	5
<b>White</b>	21	18	24	28	36	30	23	30	69	85
<b>Total</b>	57	39	48	80	108	71	60	62	100	123

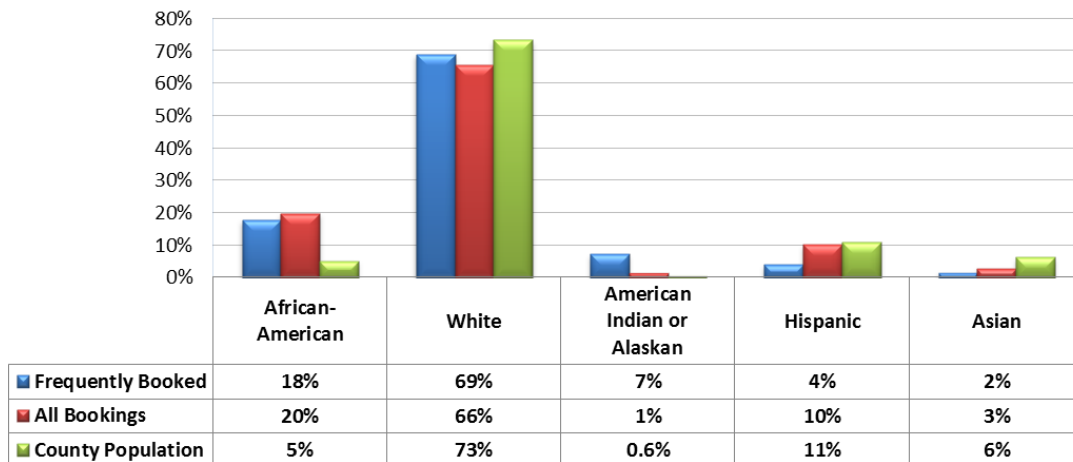

The percentage of arrestees who are White is relatively unchanged from the previous year. African American, Hispanic and Asian percentages all decreased in 2010 while the percentage for the American Indian or Alaskan category increased (Figure 2).

**Figure 2: Frequently Booked Arrestees by Race**

In Figure 3 below, the race of the frequently booked arrestees is compared to all Standard Bookings in 2010 and the US Census Bureau’s *2009 American Community Survey*<sup>1</sup>. Frequently booked arrestees in the two race categories of African-American and American Indian or Alaskan each exceeded the county population percentages for their group. Frequently booked Whites, Hispanics, and Asians were all below their county population estimates. Frequently booked Whites and American Indian or Alaskans were the only two groups whose booking percentage was greater than the percentage of all bookings during the year.

**Figure 3: 2010 Frequent Bookings by Race**

<sup>1</sup> In the *2009 American Community Survey*, 3.6% of the county population is classified as “Two or more races” or “Some other race”. As these are not categories within eSWIS, they have been excluded from this report. Thus, percentages for the county population do not add up to 100%.

Table 3 below shows the number of bookings per frequently booked arrestee by race. The average number of offenses per person (regardless of race) is 13.3. The average number of frequently booked African-Americans, American Indian or Alaskans, Asians, and Whites are all at or very close to that average. Hispanics are below the average.

**Table 3: Number of Bookings per Frequently Booked Arrestee by Race**

	Number of Bookings	Number of Arrestees	Average Number of Offenses per Arrestee
<b>African-American</b>	297	22	13.5
<b>American Indian or Alaskan</b>	120	9	13.3
<b>Asian</b>	26	2	13.0
<b>Hispanic</b>	56	5	11.2
<b>White</b>	1137	85	13.4
<b>Total</b>	<b>1636</b>	<b>123</b>	<b>13.3</b>

In 2010, 21% of all arrestees were female. Only 15% of the frequently booked arrestees were female (Table 4). No Hispanic females had 10 or more bookings during the year.

**Table 4: Frequently Booked Arrestees by Gender and Race**

	Female	Male	Grand Total
<b>African-American</b>	6	16	22
<b>American Indian or Alaskan</b>	2	7	9
<b>Asian</b>	1	1	2
<b>Hispanic</b>	0	5	5
<b>White</b>	9	76	85
<b>Grand Total</b>	<b>18</b>	<b>105</b>	<b>123</b>

The average age of the frequently booked male arrestees (43) was considerably higher than the average age of all males booked during the year (35). While frequently booked males averaged eight years older than all males booked, frequently booked females averaged only one year older than all females booked within the year (35 vs. 34). Table 5 below lists the age differences by race.

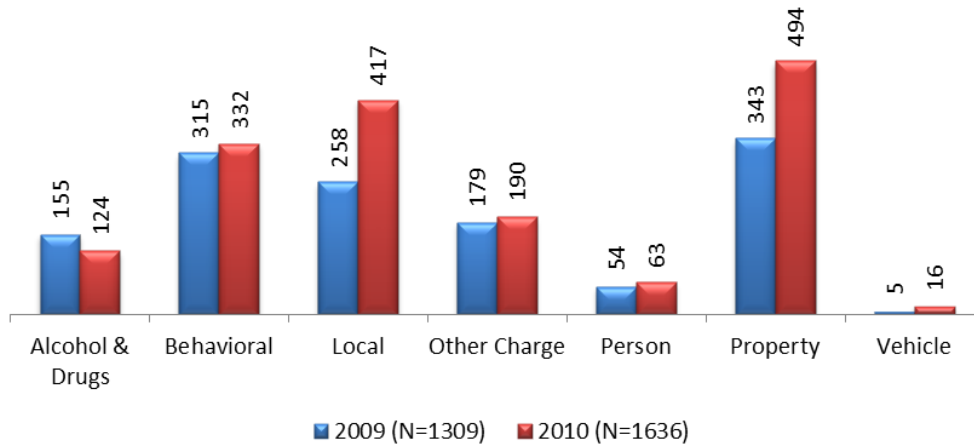

**Table 5: Average Age of Frequently Booked Arrestees by Gender and Race**

	Frequently Booked Female	All Female 2010 Bookings (N=7,165)	Frequently Booked Male	All Male 2010 Bookings (N=27,139)
<b>African-American</b>	39	33	38	35
<b>American Indian or Alaskan</b>	29	38	38	37
<b>Asian</b>	35	31	50	33
<b>Hispanic</b>			42	31
<b>White</b>	33	34	44	36
<b>Average</b>	<b>35</b>	<b>34</b>	<b>43</b>	<b>35</b>

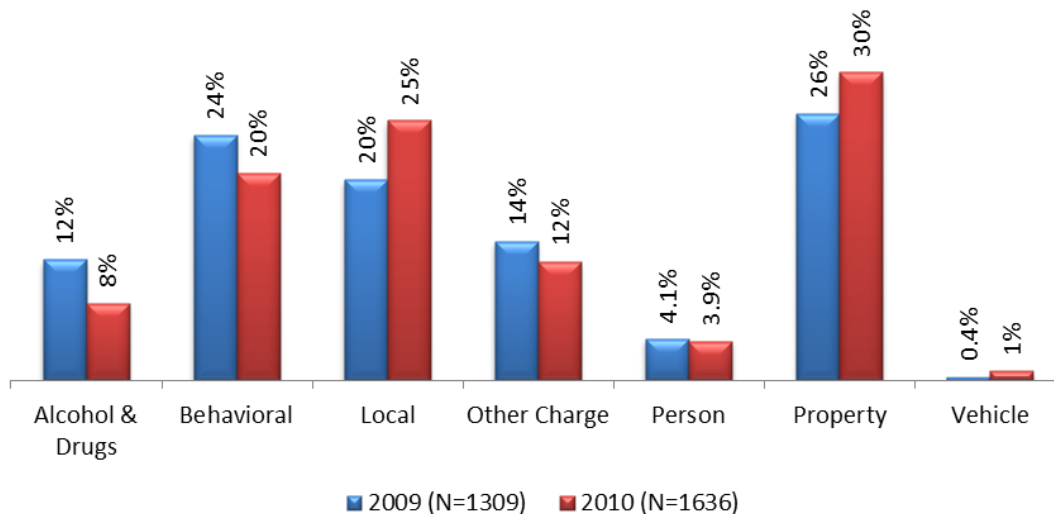

## 2009 - 2010 Frequently Booked Comparisons by Crime Type<sup>2</sup>

The number of bookings of frequently booked arrestees for all crime types except those related to alcohol and drugs charges increased in 2010 (Figure 4a). There were significant increases in municipal (local) and property crime bookings. The percentage of the total number of frequent arrestee bookings for local, property, and vehicle crimes increased while alcohol and drugs, behavioral, person crimes, and other charges all decreased (Figure 4b).

**Figure 4a: Number of Frequently Booked Offenses by Crime Type**

**Figure 4b: Percentage of Frequently Booked Offenses by Crime Type**

Warrants for the original charge of the local crime of Open Container comprised nearly 20% of all of the frequent bookings. Within the local crime category, over 77% of the local charges were for Open Container. However, while Open Container was listed as the offense, the bookings for this crime (as well as the other local charges) were for warrants issued as a result of failing to appear in court to address the infraction. Detailed tables of the charges and arrestees are included in the appendices.

<sup>2</sup> An arrestee may have more than one charge listed at the time of booking, however, this analysis only uses the primary or most severe charge.

## Frequently Booked by Arresting Agency

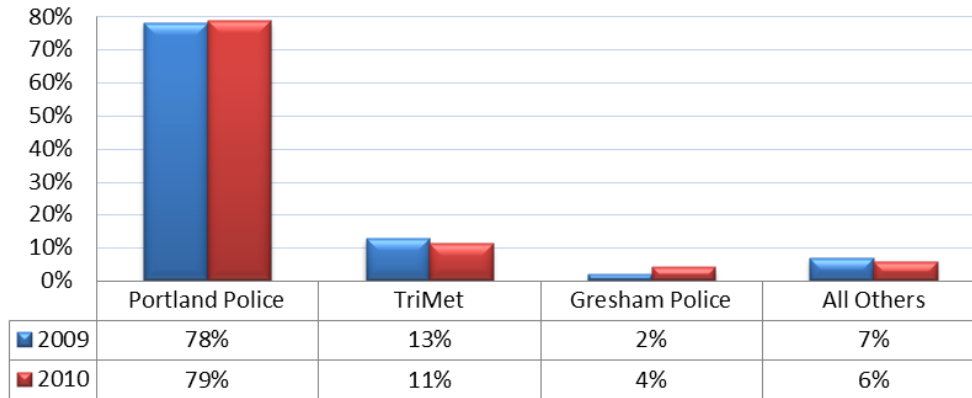

Table 6 below lists the 2009 and 2010 bookings for frequently booked arrestees by arresting agency. Gresham Police had 41 more bookings in 2010 than it did in 2009, which is a 152% increase. Portland Police had a 26% increase in bookings. TriMet and the All Others had 8% and 6% increases respectively. The category “All Others” includes: Community Corrections, Troutdale Police, Port of Portland, and Multnomah County Sheriff’s Office Enforcement.

**Table 6: Frequent Bookings by Arresting Agency**

Arresting Agency	2009	2010	% Change
Portland Police	1023	1290	26%
TriMet	169	183	8%
Gresham Police	27	68	152%
All Others	90	95	6%
<b>Total</b>	<b>1309</b>	<b>1636</b>	<b>25%</b>

In 2010, Portland Police was responsible for 79% of all bookings of frequently booked arrestees. This is a slight increase from the previous year. TriMet, with 11%, had the next highest number of bookings. Figure 5 below depicts frequent bookings by agency for the last two years.

**Figure 5: Percentage of Frequent Bookings by Arresting Agency**

## Frequently Booked Release Type and Time

As shown in Figure 6, the release type most often employed for frequently booked arrestees in 2009 and 2010 was Release on Own Recognizance (ROR)<sup>3</sup>. Both ROR and Court Ordered Releases (CORT) increased in 2010. However, Court Releases on Recognizance (CROR) and Sentenced releases (SENT) both decreased from the previous year. The number of persons released due to an expired detainer (EXPR) decreased slightly from the previous year. The “Other” category includes four arrestees released to inpatient treatment, three released on bail, and two released during an emergency population release. At the time this report was created, five of the arrestees had not yet been released.

**Figure 6: Frequently Booked Releases by Release Type**

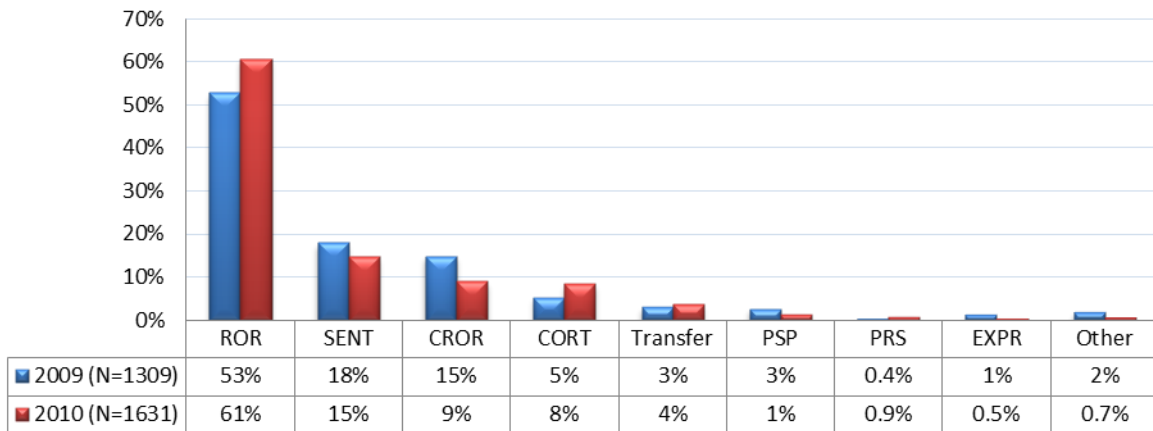

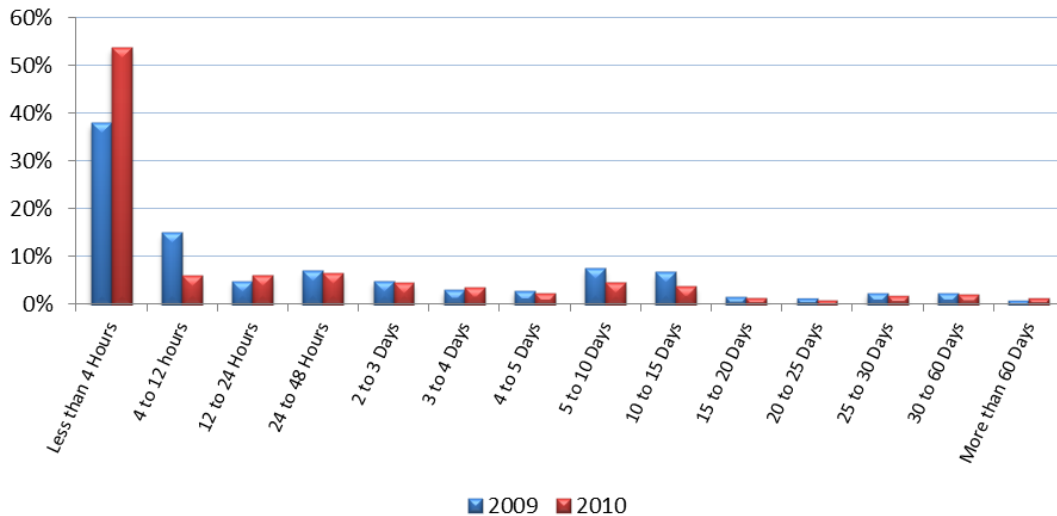

Figure 7 below shows the percentage of frequently booked releases by the length of time the arrestee remained in custody. Custody times range from less than four hours to more than 60 days. In both 2009 and 2010, the majority of releases (60%) occurred within the first 12 hours after booking. Of the 1,631 releases, 877 (54%) occurred within four hours. In 2009 only 38% were released within that time frame.

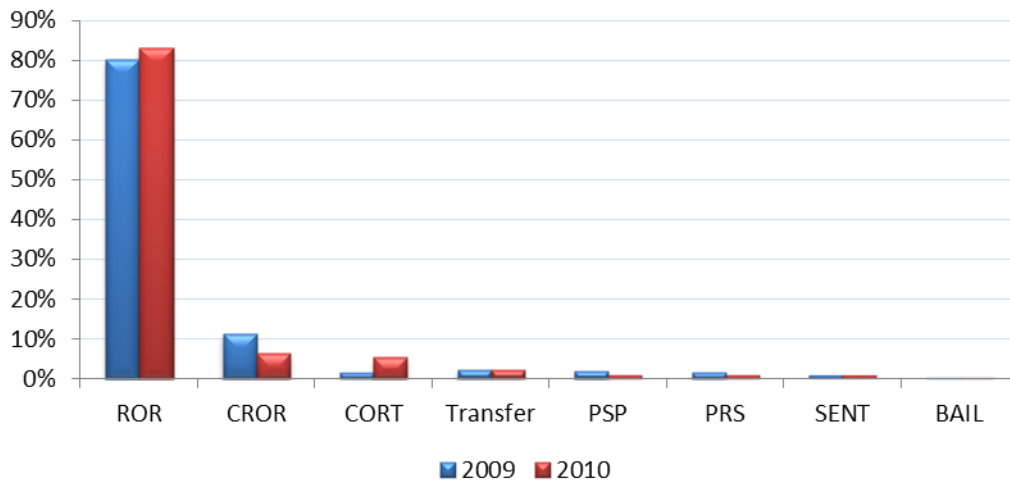

**Figure 7: Percent of Frequently Booked Releases by Custody Duration**

<sup>3</sup> ROR screening is a function performed by the Department of Community Justice for the courts during the booking process.

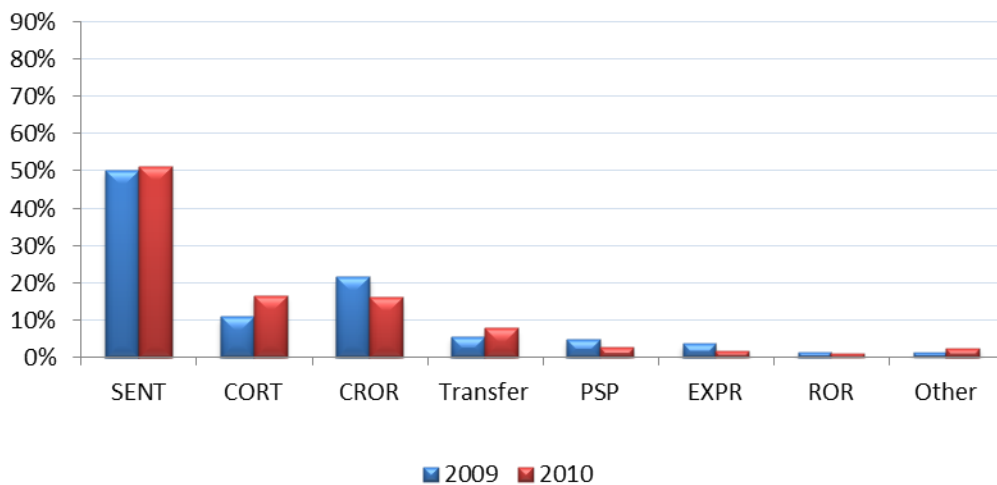

Slightly more than 83% of the frequently booked arrestees released within the first 48 hours were ROR releases (Figure 8). This is up from 80% the previous year. CORT releases within 48 hours increased from 2% to 5%.

**Figure 8: Frequently Booked Release Reasons - First 48 Hours**

Of the frequently booked arrestees released after 48 hours, the majority were released after serving their sentence (Figure 9). While it is normal for ROR releases to occur within the first eight hours of booking, the ROR releases occurring after 48 hours happened when arrestees' initial charges were reduced or the primary charge was dismissed. These changes allowed them to be released on their own recognizance on a lesser charge. This was the case for 1% of releases after 48 hours.

**Figure 9: Frequently Booked Release Reasons - After 48 Hours**
