Monthly Emergency Population Release Report - March 2006

Emergency population releases during March totaled 167, occurring on 9 days during the month. This is up 33% from February's total of 126 releases, and only one release short of January's total of 168. This March's 167 releases are 153% below last March's total of 422 releases. All 167 releases for March 2006 were unsentenced; 138 were males and 29 were females. The average high score slightly increased during March, ending with an average high of 47 from February's average high score of 41. Overall, March's average high score ended 92% below March of 2005 when high scores averaged at 90. Jail capacity during March stayed at 1690 beds in two facilities. Listed below are the crime descriptions of those released in March, and the number of occurrences for each.
