**Monthly Emergency Population Release Report
January 2007**

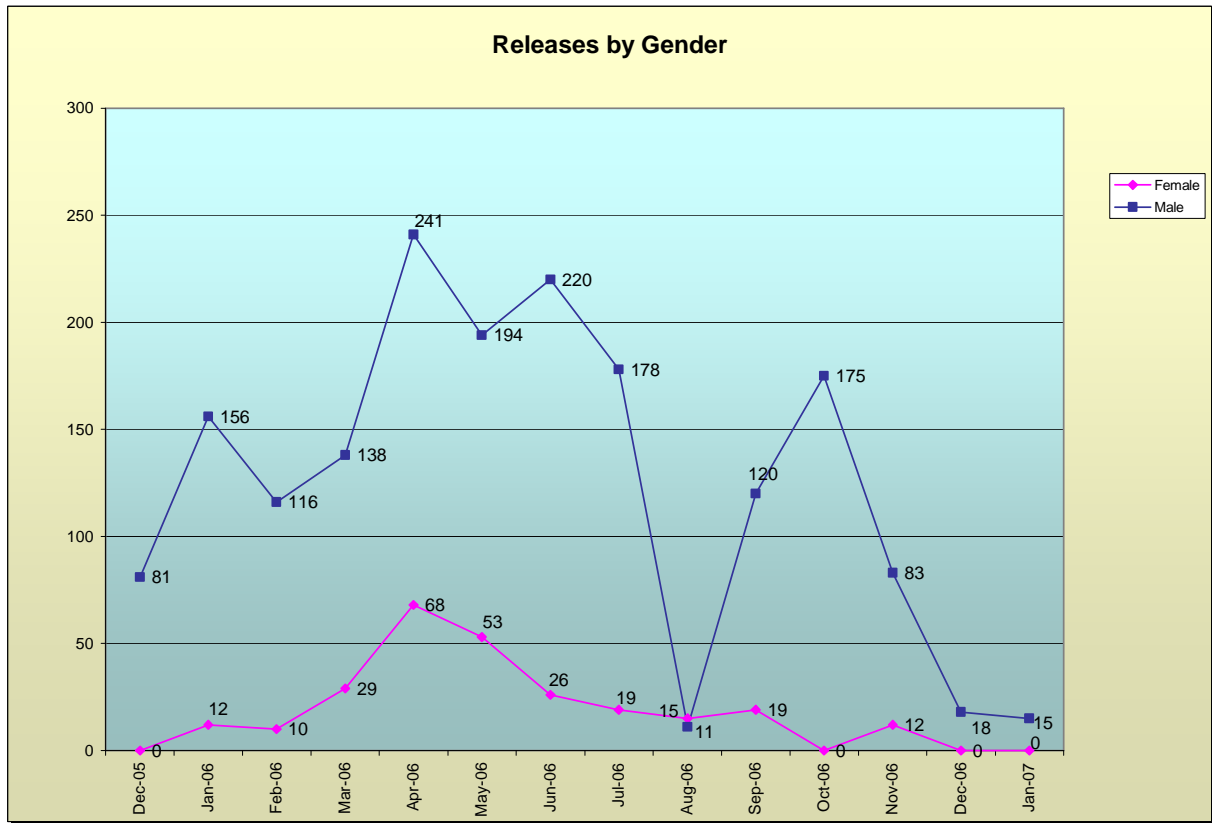

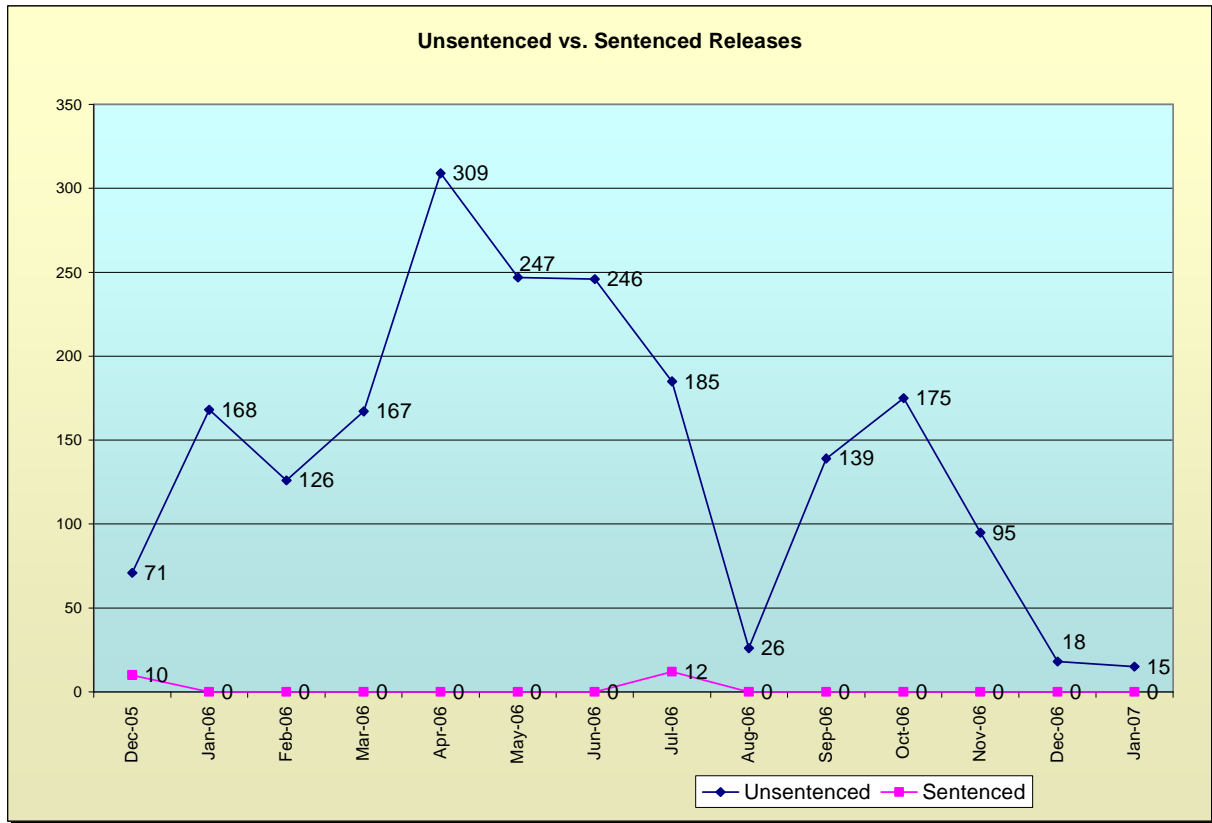

Fifteen emergency population releases occurred on one day in January; similar to December's total of 18 releases and 40% less than January 2006 when the early releases totaled 25. All 15 early releases in January were unsentenced males. High score for emergency population releases during January was 40; one point higher than December's high score of 39 and 33% lower than one year ago when the highest early release score was 60. The average score for January was 32; this is an increase of 21% from December's average score of 25 and about the same as January 2006's average score of 31. Jail capacity remains at 1690 beds. Listed below are the crime descriptions of those released in January, and the number of occurrences for each.
