Efforts are made to balance the population to the demands of the classification system for specific types of jail beds and balance the space needs for male or female inmates. Additionally, jail capacity varies throughout the day. These capacity calculations are based on 4 AM population counts.

On September 23, 2010, the Multnomah County Board of Commissioners adopted Resolution No. 2010-141 whereby if the number of inmates housed within the Multnomah County jail system reaches 95% of the population limit, a county jail population emergency will exist.
