The Multnomah County Sheriff's Office recognizes the right for people to self-identify their race/ethnicity and the limitations the current booking data system has in this regard.

Percentage of Capacity by Day

* Red bars indicate days on which EPRs occurred. EPRs do not always or only occur when capacity exceeds the 95% threshold. Efforts are made to balance the population to the demands of the classification system for specific types of jail beds. Additionally, jail capacity varies throughout the day. These capacity calculations are based on 4 AM population counts.

In June 2025, the Multnomah County Board of Commissioners adopted the Population Emergency Release Plan ([2026-013](#)). The plan states the existence of a jail population emergency when the population reaches 95% of budgeted capacity and outlines the processes established to resolve the emergency.
